

Asarudeen S

MERN Stack Developer

☎ 8608773122 | ✉ asarudeen2005a@gmail.com | 🔗 linkedin.com/in/asarudeen7 | 🐙 github.com/asardev7

Summary

MERN Stack Developer skilled in building responsive, scalable web applications using MongoDB, Express.js, React.js, and Node.js. Experienced in REST APIs, JWT authentication, Socket.io, Redis, and modern frontend development. Passionate about creating efficient, user-focused web solutions and continuously improving full stack development skills.

Education

The American College

Bachelor of Computer Applications (BCA) — **CGPA: 8.8**

2023 – 2026

Madurai, Tamil Nadu

Projects

Ri Chat: Real Time Chat Application — MERN, Socket.io, Redis, Tailwind CSS

- Engineered a full-stack real-time chat application using the MERN stack with instant messaging powered by Socket.io.
- Implemented secure JWT authentication and bcrypt password hashing for user authorization and account protection.
- Integrated Cloudinary media uploads and Giphy API support to enhance user interaction features.
- Improved backend response performance through Redis caching to optimize repeated data retrieval operations.
- Designed a responsive React frontend using Tailwind CSS and Zustand state management for scalable UI handling.
- Integrated Nodemailer-based OTP verification and email notification workflows.
- **GitHub:** github.com/asardev7/Chat-app
- **Live Demo:** ri-chat.up.railway.app

Linkoo: URL Shortener — React, Node.js, Express.js, MongoDB

- Built a full-stack URL shortening platform with custom aliases and analytics dashboard functionality.
- Implemented JWT-based authentication, QR code generation, and downloadable QR sharing features.
- Developed analytics tracking for browser, device, and geographic click insights using Recharts.
- Created a responsive light/dark mode interface using Tailwind CSS and Context API state management.
- **GitHub:** github.com/asardev7/url-shortener
- **Live Demo:** url-short-ov0k.onrender.com

Draken: E Commerce Platform — React, Tailwind CSS, MongoDB

- Developed a responsive e-commerce frontend featuring product listings, filtering, and shopping cart functionality.
- Implemented persistent cart management using localStorage to improve user shopping experience.
- Designed authentication pages including login, signup, and profile management interfaces.
- Integrated frontend components with MongoDB backend services through REST API communication.
- **GitHub:** github.com/asardev7/E-commerce
- **Live Demo:** e-commerce-6ah7.onrender.com

Technical Skills

Languages: JavaScript, Python

Frontend: React.js, HTML5, CSS3, Tailwind CSS, Material UI

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, PostgreSQL, Redis

Tools & Platforms: Git, GitHub, VS Code, Postman, Thunder Client

Concepts: JWT Authentication, CRUD Operations, Responsive Web Design, API Integration, Real-Time Communication

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Time Management

Certifications

- **Full Stack Developer** - GUVI (2026)
- **REST API (Intermediate)** - HackerRank (2026)
- **GitHub Basics** - Simplilearn (2026)

Extracurricular

Participated in GenAI Hackathon conducted by The American College
